

IT'S TIME TO PARTY

Dear **Beth**,

We all love entertaining during the party season, putting on a beautiful feast for our family and friends and letting our inner Masterchef shine.

This month we've sourced the latest trends in tableware, delicious fruity desserts and a refreshing cocktail to wow your dinner guests as well as a give-away that will have you scrambling to throw a party.

Happy eating!

NEWS & EVENTS

Your Table

Whether it's indoor or outdoor, Summer is the time for entertaining. We've scouted the latest trends in dressing your table for the party season.

INDOOR:

The first step is to decide on a colour scheme. Stick to complementary colours on your table such as white and blue, natural shades such as beige and brown or if you're confident, mix prints and patterns for an opulent finish.

For table decorations, consider candles over flowers if entertaining in the evening to cast a warm glow over the table. Mixing silver with crystal candlesticks, at different heights will add a little drama. And don't forget to personalize each table setting with a hand written place card to make you guests feel that extra bit special.

OUTDOOR:

Food presentation is as important as taste, and the latest trend in tableware is combining ceramics with natural fibres such as bamboo.

With warm weather upon us, what better way to showcase alfresco dining than with beautiful bamboo accessories from Plenty Kitchen and Tableware at Westfield Bondi Junction.

When dressing your table for your next outdoor party or picnic, layer lacquer bamboo bowls on top of ceramic plates for a contrast in texture. Showcase delicious salads in bamboo salad bowls of varying sizes and accessorize with bamboo serving spoons.

To add the finishing touch to your outdoor table setting opt for ornamental, "lucky bamboo" cuttings in thin, glass bottles instead of the traditional vase of flowers.
