BRIGHT SIDE OF LIFE

Pull up a seat and bring a little ray of sunshine into your home with the new range of tableware and accessories from SunnyLIFE. Displaying a chic Australian style that combines good looks and functionality, the collection features new lacquer bamboo colours and products, natural bamboo favourites, melamine in striking navy, white and red, cork placemat and coaster sets, and cotton napery; including table runners, napkins, placemats and tablecloths. Available nationwide from David Jones.

COAST TO COUNTRY

For over two decades, the landscape designs of Neil and Jenny Delmage have been setting the standard for gardens that are waterwise, low-maintenance and breathtakingly beautiful. In *From Coast to Country* the husband-and-wife team reveal some of their most spectacular landscape designs. The philosophy and know-how behind the Delmages' designs come to life in this visual celebration of all gardens, whether tiny coastal spaces or sprawling rural properties. Surprising and inspiring, *From Coast to Country* presents gardens that are environmentally friendly as well as liveable, rich with natural beauty and, most of all, have a sense of place. Available from Penguin.

UNDER MY UMBRELLA

Priced from \$89.99, the Timber Market Umbrella has a Chinese hardwood pole for increased strength and durability. There's a double-pulley system to assist with opening and its chic colour and design make it suitable for various outdoor settings, whether it's to shelter a table or shade a standing space. Available from MITRE 10.

PAINT BE GONE!

Peel Away is a unique paint-removal system suitable for the removal of multiple layers of all types of paints. The product is a smooth alkaline paste somewhat akin to the consistency of peanut butter. It's easily applied with a spatula, brush or roller. The product is then covered with Peel Away laminated paper, allowing it to emulsify up to 30 layers of lead-based enamel paint in one application. The laminated cover is then peeled away and with it the paint and the paste. Beyond the easy removal of multiple layers of old, flaking paint, the benefits of Peel Away also include the containment and safe disposal of possible toxic paints, the reduction of contamination into the water system and reduced health risks to the public and industry. For more information, visit www.peelaway.com.au

TIMBER!

Priced from \$229, the Iluka Timber Table has a natural wood-oil finish and is made from eucalyptus timber. Its simple design complements any outdoor room and, with central access for an umbrella, it's a must-have for your home. Complementary umbrella and matching swing, all available from MITRE 10.
