HOPPO'S TIPS

- Make sure you swim between the red and yellow flags – these areas are patrolled and are the safest places to swim.
- Watch for the signs the lifeguards put out, such as warnings of strong currents.
- If you've eaten a big meal – and let's be truthful, most meals around Christmas are going to be big – wait at least 30 minutes to an hour before getting in the water.
- Alcohol and swimming are not a good match. Avoid swimming after drinking.
