3 TOP TIPS

above
Brighten up your life with paint colours from Dulux. Olive reserve, Sunbound, Purple mystery, Play school

Dulux colour planning and communications manager, Andrea Lucena-Orr offers advice on the trends and colours of the season:

1. Individualise your space – be it a balcony or courtyard, the area needs to reflect the personality of the household, what you like and furnishings you already have.
2. Dare to be different – natural light allows you to experiment with bright or bold colours.
3. Tone and texture – metallic and textured paints are making a comeback; utilise your space and explore an array of options to get the right look.

Visit dulux.com.au for more on the 2010/11 colour forecast.
