- ✿ Buy a new beach towel – everyone needs one; taking a bath towel to the pool or the beach just looks plain wrong! And if you're lucky enough to have your own pool, there's nothing nicer than using your favourite bright and beautiful beach towel on a regular basis. We love SunnyLife towels, priced from \$59.95 to \$79.95.
- ✿ Hang mosquito nets around your beds – particularly useful if you don't have flyscreens on your windows. Not only do they look all dreamy and resort-like, they will keep the bugs at bay. If you really need proper insect protection, opt for rectangular nets, rather than circular nets, because they tend to fit better over the whole bed and won't droop on to your head or body.
- ✿ If your outdoor setting is not shaded, invest in the biggest and best-quality outdoor umbrella you can afford. Ample shade is essential for comfortable outdoor dining.
- ✿ If you don't have airconditioning, invest in several fans. It's much more convenient to have a few fans permanently set up in a few rooms (each bedroom, say, plus the living room and the computer room). Then you won't have to lug cumbersome fans about the house as you swap rooms for lengths of time.
- ✿ Always ensure there's plenty of ice in the freezer. You'll need it for all those refreshing sunset drinks in the back garden.
