bee-autiful bags

The birth of her son Dylan two years ago helped Claire Morris change career path. Formerly the art director of *Marie Claire* magazine, Claire teamed up with her best friend's husband, Brett Pattinson, who runs natural skincare company Bod (bod.com.au), to launch bag company **Apple&Bee**. "It was Brett's idea to make designer bags, and we wanted the company to be carbon-neutral," Claire says. Their latest collection, Honey By Apple&Bee, is a range of organic cotton make-up bags for fashion store Sussan. Part of the profits will be donated to non-profit organisation The Bee Foundation, which raises money to help investigate the mysterious dying-off of the world's bee populations.
